

Please take any action necessary to keep KLOVE 100.1 on the air in San Diego, California. This radio station has impacted my life and the lives of several of my friends with its encouragement and positive attitude. With most of the secular music on the radio today I am very uncomfortable for my small children to listen to the radio at all. The ONLY station my family has listened to in the past 4 years has been KLOVE 100.1 and I hope it will continue to be for the next 20 years.
